Using a working set limited to 600 pages and 77 pages of data storage (excluding image)

Total number object records read (both passes): 348
 of which 116 were in libraries and 4 were DEBUG data records containing 148 bytes

Number of modules extracted explicitly = 2
 with 2 extracted to resolve undefined symbols

15 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
